# URBAN HORTICULTURE & LANDSCAPE MANAGEMENT

The Urban Horticulture and Landscape Management Program is designed to prepare the student for entry-level employment in four specialty areas of this field: landscape, greenhouse, nursery and interior plantscaping. Coursework includes instruction about the materials, operations and business practices in each of these areas. All students complete the horticulture core and elective coursework as approved by the instructor. All classes train toward industry certifications.

**The following certificate may be earned:**  
Urban Horticulture and Landscape Management
