WELDING

The Welding Program is designed to provide entry-level skills in welding. Students will receive training in oxyacetylene, shielded metal arc welding, gas metal arc and gas tungsten arc welding, flux cored arc welding, blueprint reading, and fabricating. Modern tools and equipment will be used throughout the training period to provide up-to-date training. The American Welding Society Plate Certification test, ASME IX pipe test are administered to determine welding competence.

The following certificate may be earned:
