# COLLISION REPAIR TECHNOLOGY

The Collision Repair Technology Program duplicates a collision repair shop environment where work is performed on program vehicles. The rigorous work load requires that the student be in good physical condition, have a strong understanding of reading, writing, science, and math. This program uses the new I-CAR PDP-EE Curriculum; which is the industry leader in collision repair and refinishing. Earning a certificate provides students with entry level skills. All students must be 18 years old by end of year 1.
