

a great
place
to start for

URBAN HORTICULTURE & LANDSCAPE MANAGEMENT

The Urban Horticulture and Landscape program at Pickens Technical College gives students a broad introduction to the world of horticulture, as well as a concrete pathway into a career with links to area businesses. The Horticulture program hosts 6 greenhouses, where we study everything from tropical plants to nursery propagation. In addition to work in our classroom and laboratory, our campus holds a living library of trees, shrubs and perennials for students to study. Coursework includes instruction about the materials, operations and business practices in each of these areas.

The following certificate may be earned:

Urban Horticulture and Landscape Management

Class Hours

7:50-10:40 am, M, T, W, Th, F
