

ADVANCED RESPIRATORY CARE

Advanced Respiratory Care Certification, A.A.S. In Respiratory Therapy from CCA

Provide critical care and therapy for patients with various respiratory conditions.

Upon graduation students will be eligible to take the NBRC Registered Respiratory Therapist Exams (RRT). The curriculum includes off-site clinicals and on-site simulation labs. The respiratory therapy program will help students learn a variety of skills used in the industry, including the following:

- Implement advanced life support techniques
- Treat medical emergencies in collaboration with health care teams
- Monitor patient conditions during treatments, procedures, or activities
- Inform medical professionals regarding patient conditions and care
- Assist healthcare practitioners during examinations or treatments

Prerequisites:

- Applicants are required at minimum to have BIO 201 Human Anatomy & Physiology I for entrance into the Respiratory Therapy Program
- All credits must be from CCA, and applicants must be able to provide unofficial transcripts. All credits from other institutions must be evaluated by CCA prior to enrollment.
- Applicants must set up an interview with the program director for admission
- Must have a high school diploma or G.E.D.

Suggested educational levels:

- English literacy (reading, writing, speaking, and listening)
- Understanding of basic algebra

Suggested physical abilities:

- Capable of lifting 25 pounds
- Capable of sustained activity for prolonged periods of time

Class Hours:

- Year 1: 8:00am -3:00pm Mon., Wed., & Fri.
- Year 2: 8:00am -3:00pm Mon. & Wed.
- Clinical days vary
- Program is 4 semesters in length, with start dates in Fall.

Tuition and Credit Hour Calculation

Semester 1 \$1,560.00 (Tuition) + \$170.00 (Credit Hour Fee) \$1,730.00	Semester 2 \$2,080.00 (Tuition) + \$210.00 (Credit Hour Fee) \$2,290.00
Semester 3 \$1,170.00 (Tuition) + \$140.00 (Credit Hour Fee) \$1,310.00	Semester 4 \$1,950.00 (Tuition) + \$200.00 (Credit Hour Fee) \$2,150.00

Based on Colorado Resident In-State Tuition

Estimated Program Costs (to be paid at Picken's payment office)

Tuition and Credit Hour Fees:

- Semester 1: \$1,730.00
- Semester 2: \$2,290.00
- Semester 3: \$1,310.00
- Semester 4: \$2,150.00

Required On Campus Costs:

- Program Charges: \$500.00 (each semester)
- Student ID: \$10.00 (each year)
- CTSO Charge: \$20.00 (each year)
- Books: \$654.00 (+ tax)
- RT Kit: \$125.00 (+ tax. Required for RCA 1032)
- Sims Lab semester 1: \$200.00
- Sims Lab semester 3: \$200.00
- My Clinical Exchange: \$50.00 (semester 1)
- Trajecsys: \$150.00 (semester 1)
- Clinical Charges semester 2: \$3,600.00
- Clinical Charges semester 4: \$3,600.00
- Course/Clinical make-up fee: \$1,260.00
- Heart Code BLS/CPR/AED Hands-On: \$20.00 (semester 2)
- Exit Exam: \$110.00

Estimated Total:

Advanced Respiratory Care Certificate: \$19,509.00 (+tax)

Additional Relevant Costs (estimated)

Required Off Campus Costs:

- Heart Code BLS Course Charge Supplies: \$25.00 (+ tax)
- Heart Code CPR Online Certification Course: \$28.50 (+ tax)
- Uniform/Scrubs: \$75.00-\$100.00
- Stethoscope: \$75.00
- Health Exam: \$80.00-\$120.00 (exam arranged with private physician)
- Hepatitis Vaccine: \$150.00 (vaccine arranged with private physician)
- AARC Annual Membership: \$50.00 (yearly)
- CSRC Conference: \$200.00
- CCS Background Check and Drug Screen: \$61.20 (to be done through cccs.castlebranch.com. Additional fees could be required)
- ACLS Class and Book: \$200.00

Credits:
52

Length:
2 years

Cost:
\$19,509

RESPIRATORY THERAPY

Courses required for this certificate:

RCA 1005 Introduction to Respiratory Care

Introduces the profession of respiratory care including history of the profession; current and future role of the respiratory care professional; role, function and interrelationships of the several professional organizations; and medical terminology.

RCA 1021 Fundamentals of Clinical Skills

Provides information necessary to function safely and efficiently in the clinical setting. It includes the study of universal precautions, infection control, asepsis, body mechanics, patient charting, communication skills, organizational skills, and basic patient assessment.

RCA 1032 Basic Techniques in Respiratory Care II

Develops the knowledge of oxygen systems and humidity & aerosol therapy. Prepares the student in the techniques of spirometry, hyperinflation techniques and bronchial hygiene. Airway management skills are introduced.

RCA 1051 Cardiopulmonary Anatomy and Physiology

Focuses on the structure of the pulmonary and cardiovascular systems. Addresses independent functional relationships.

RCA 1052 Cardiopulmonary Pathology

Focuses on a study of the diseases affecting the lungs and pulmonary circulation. Emphasizes clinical manifestations and the relationship of pathology and treatment.

RCA 1065 Pharmacology of Cardiopulmonary Care

Focuses on a study of the principles of pharmacology and the pharmacologic properties and application of drugs commonly employed in the treatment of cardiopulmonary disease.

RCA 2030 Critical Care I

Focuses on the care of critically ill patients. Includes advanced pulmonary physiology and pathophysiology, assessment and monitoring of acute and chronic respiratory failure, mechanical ventilation, and emergency respiratory care. Incorporates a laboratory portion that enables the student to develop skills essential for the assessment and treatment of the critically ill.

RCA 2032 Advanced Monitoring

Develop the necessary skills required of Respiratory Care professionals to include monitoring and assessment of the patient requiring intensive care using both non-invasive and invasive data. Topics include: introduction to hemodynamic values and interpretation of the results; characteristics and indications of both bronchoscopy and sleep disorders; and introduction to research.

RCA 2051 Critical Care II

Focuses on selected topic areas in critical care. Includes both technical and management concerns in the intensive care setting.

RCA 2052 Cardiopulmonary Diagnostics II

Explores the procedures used in the diagnosis of pulmonary disease through pulmonary function testing.

RCA 2053 Perinatal and Pediatric Respiratory Care

Focuses on the pathophysiology and technology that relates to the neonatal-pediatric patient.

RCA 2059 Advanced Medical Ventilation

Provide the student with the opportunity to thoroughly probe into the function of mechanical ventilators and how ventilators actually work. It is important for the student to adjust the way they think about ventilators and how to begin to master their operation.

RCA 2081 Internship II

Focuses on the care and analysis of the critically ill patient. Rotations into specialty areas are carried out as the schedule permits.

RCA 2083 Internship III

Continues to address the care and analysis of the critically ill patient and specialty rotations. Attempts to more closely evaluate the student's ability to manifest critical judgments in solving clinical problems and understanding professional/departmental activities.

RCA 2089 Capstone

A demonstrated culmination of learning within a given program of study.

ADVANCED RESPIRATORY CARE CERTIFICATE

Certificate Total: Clock Hours: 1110 Credit Hours: 52

Certificate Length: 4 semesters

General Education requirements are to be taken at Community College of Aurora to complete an Associates Degree:

Students must meet all prerequisite requirements for each course listed below. It is strongly recommended to take general education courses prior to enrolling. All 26 general education requirements from Community College of Aurora must be completed before the completion of the final semester in the Pickens program.

BIO 2101 Human Anatomy & Physiology I

BIO 2102 Human Anatomy & Physiology II

BIO 2104 Microbiology

CHE 1011 Introduction to Chemistry I with Lab

ENG 1021 English Composition

MAT 1140 Career Mathematics

PSY 1001 General Psychology
