Dental Assisting Certification - FULL DAY

Provide patient care, take x-rays, keep records, schedule appointments, and assist dentists in all aspects of treatment

The curriculum includes experience in an on-site simulated clinic and work at off-site clinicals. The dental assisting program will help students learn a variety of skills used in the industry, including the following:

- Assist dentists in chairside dental procedures
- Clean and prepare dental instruments and equipment for use
- Perform procedures such as taking x-rays and impressions
- Maintain dental records
- Provide patients with preventive education and nutritional counseling

Prerequisites:
- Students must be 18 before enrolling in DEA 1024 & DEA 1034, as directed by the Colorado State Board of Dental Examiners Rule & Regulations.

Suggested educational levels:
- English literacy (reading, writing, speaking, and listening)
- Understanding of basic algebra

Suggested physical abilities:
- Capable of sustained activity for 5 hours at a time

Class Hours:
- Morning: 7:50am - 10:40am Mon.- Fri.
- Afternoon: 12:05pm - 2:55pm Mon.- Fri.
- Program is 4 semesters over the course of 2 terms in length, with start dates in Fall.
- Students have the option of full day or half day classes for the first 2 semesters of curriculum.

- Infection Control Exam: $150.00
- General Chairside Exam: $175.00

Credits: 46
Length: 1 year
Cost: $8,712
Courses required for this certificate: Semester 1 & 2 (combined)

DEA 1011 Introduction to Dental Practices
Includes roles and responsibilities of the dental health team; educational background for the various specialties including general practitioner, hygienist, dental assistant; history, legal implications, ethical responsibilities and the role of professional organizations.

DEA 1012 Dental Science I
Includes fundamentals of the oral structures as they apply oral histology, embryology, morphology, pathology, dental anatomy, and dental charting.

DEA 1013 Dental Science II
Includes survey of human anatomy and physiology, the structure of the head and neck as applied to dental assisting, the function of the maxilla and mandible, processes, foramen, sutures, and major nerve and blood supply.

DEA 1014 Dental Science III
Includes in-depth study of oral defects, microorganisms and their effects on the human body with recognition and identification of pathological condition that most frequently occur orally. Emphasizes pharmacology and the drugs used in the prevention and treatment of pain and conditions of the oral cavity. Focuses on laboratory experiences and the procedures involved with local anesthesia and the knowledge of nitrous oxide administration in the dental office.

DEA 1016 Medical Emergencies in Dental Office
Includes techniques for taking and reading vital signs as well as Cardiopulmonary Resuscitation (CPR) for Health Care Providers. Emphasizes recognition, prevention, and management of medical emergency situations in the dental office. Covers completing and updating patient health history.

DEA 1023 Dental Materials I
Includes fundamentals of dental materials as they apply to clinical and laboratory applications.

DEA 1024 Dental Radiography
Focuses on the science of radiography, the application of radiographic techniques, and aseptic techniques.

DEA 1030 Dental Office Management
Includes off ice management and clerical practices, scheduling appointments, completing daily records, insurance and tax forms, bookkeeping and recall systems, and ordering supplies.

DEA 1031 Advanced Dental Radiography
Includes theory and techniques of exposing intra-oral and extra-oral radiographs on adults, children, edentulous, and special needs patients. Covers dental anatomy radiographic interpretation and aseptic techniques. Enables the student to expose radiographs on the x-ray mannequin and patients. Students must be a minimum of eighteen years old.

Courses required for this certificate: Semester 3 & 4 (combined)

DEA 1021 Principles of Clinical Practice
Includes techniques used in four handed dentistry, instrument identification, and armamentarium for tray set-ups. Covers sterilization and aseptic procedures.

DEA 1022 Specialties in Dentistry
Focuses on armamentarium of specific tray set-ups for periodontics, endodontics, and fixed and removable prosthetics. Examines pediatric dentistry, oral surgery, and implants. Includes diagnosis, treatment, and the dental assistant’s role in each specialty.

DEA 1032 Dental Office Management
Includes office management and clerical practices, scheduling appointments, completing daily records, insurance and tax forms, bookkeeping and recall systems, and ordering supplies.

DEA 1034 Prevention and Nutrition in Dentistry
Includes techniques in preventive dentistry with an emphasis on fluoride application and oral home care instruction. Includes nutrition as it applies to dental health and diet counseling. Covers techniques for coronal polishing.

DEA 1080 Clinical Internship
Includes the opportunity for clinical application of dental assisting techniques in a dental office or clinical setting as part of the American Dental Association’s requirement of 300 clinical internship hours.

DEA 1081 Clinical Internship I
Includes the opportunity for clinical application of dental assisting techniques in a dental office or clinical setting as part of the American Dental Association’s requirement of 300 clinical internship hours.

DEA 1082 Clinical Internship II
Focuses on clinical practice in private or public dental offices or clinics with clinical work experience in both general dentistry and specialty fields on a rotating basis.
